# Nested Loops In Bee/Zombie

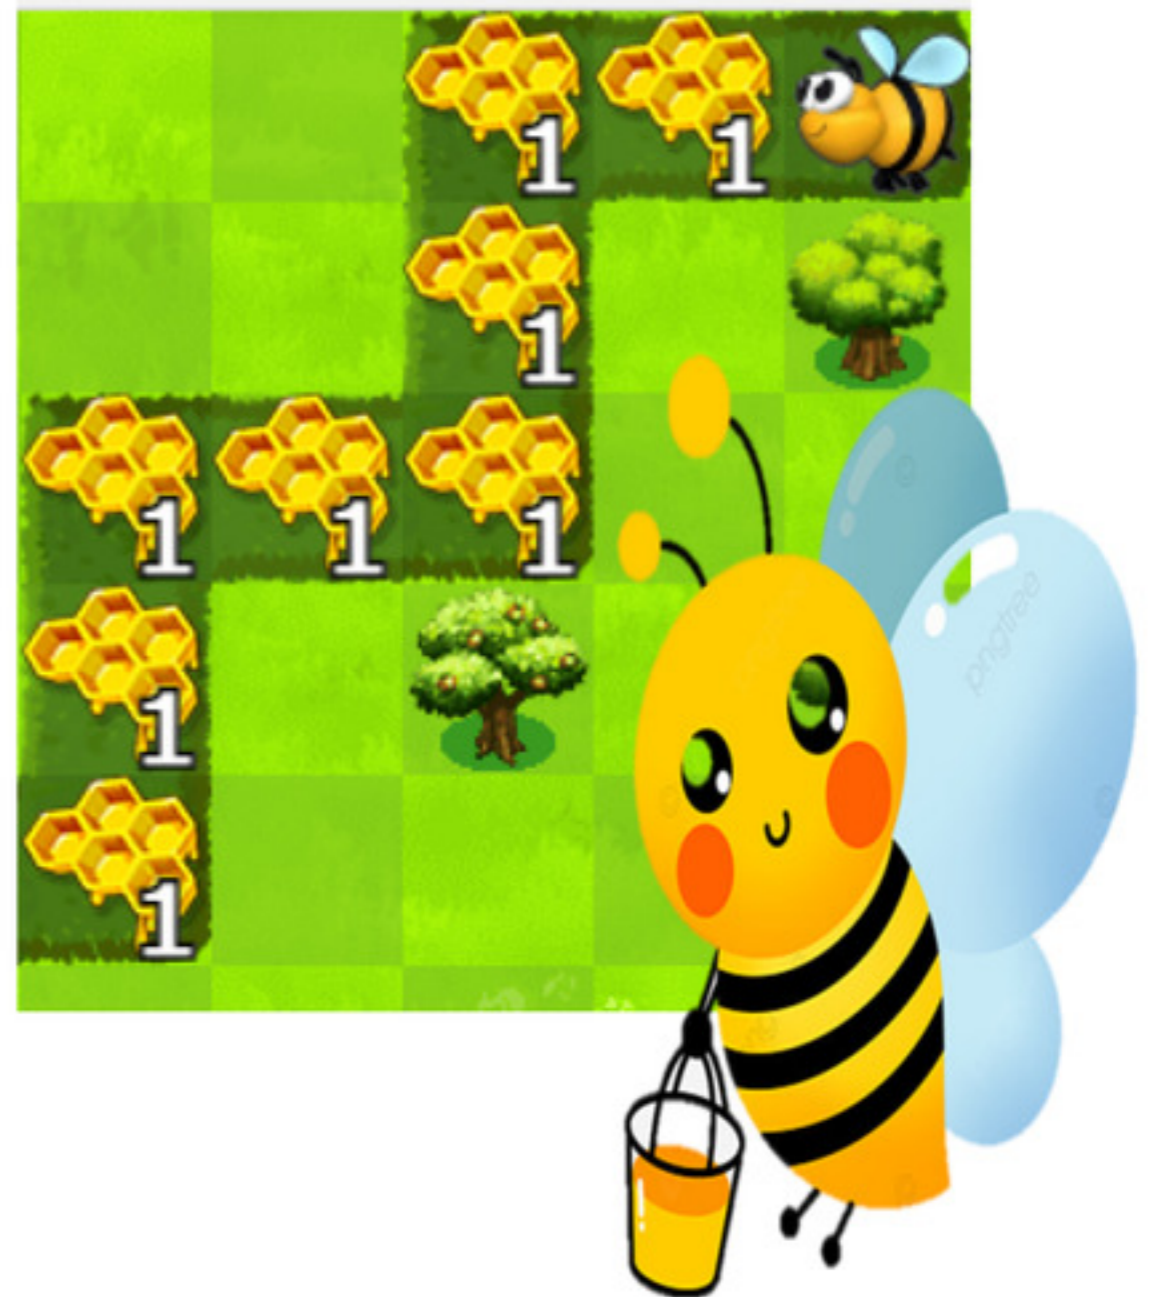

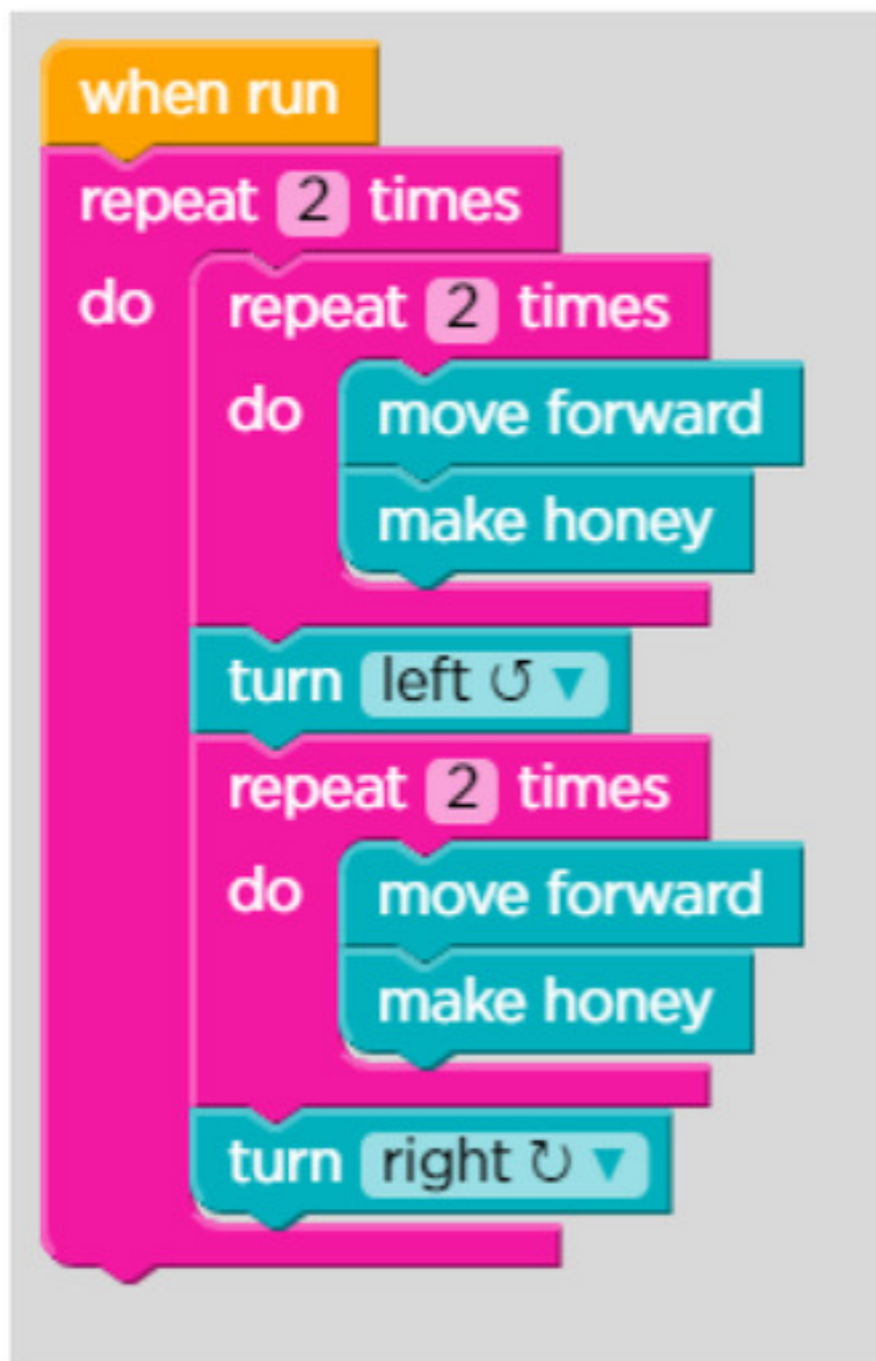

- At this point, you will get to know the character of a bee
- This stage will not be much different from the previous stages as you will help her
- On obtaining the nectar of the flowers present in each stage are as follows

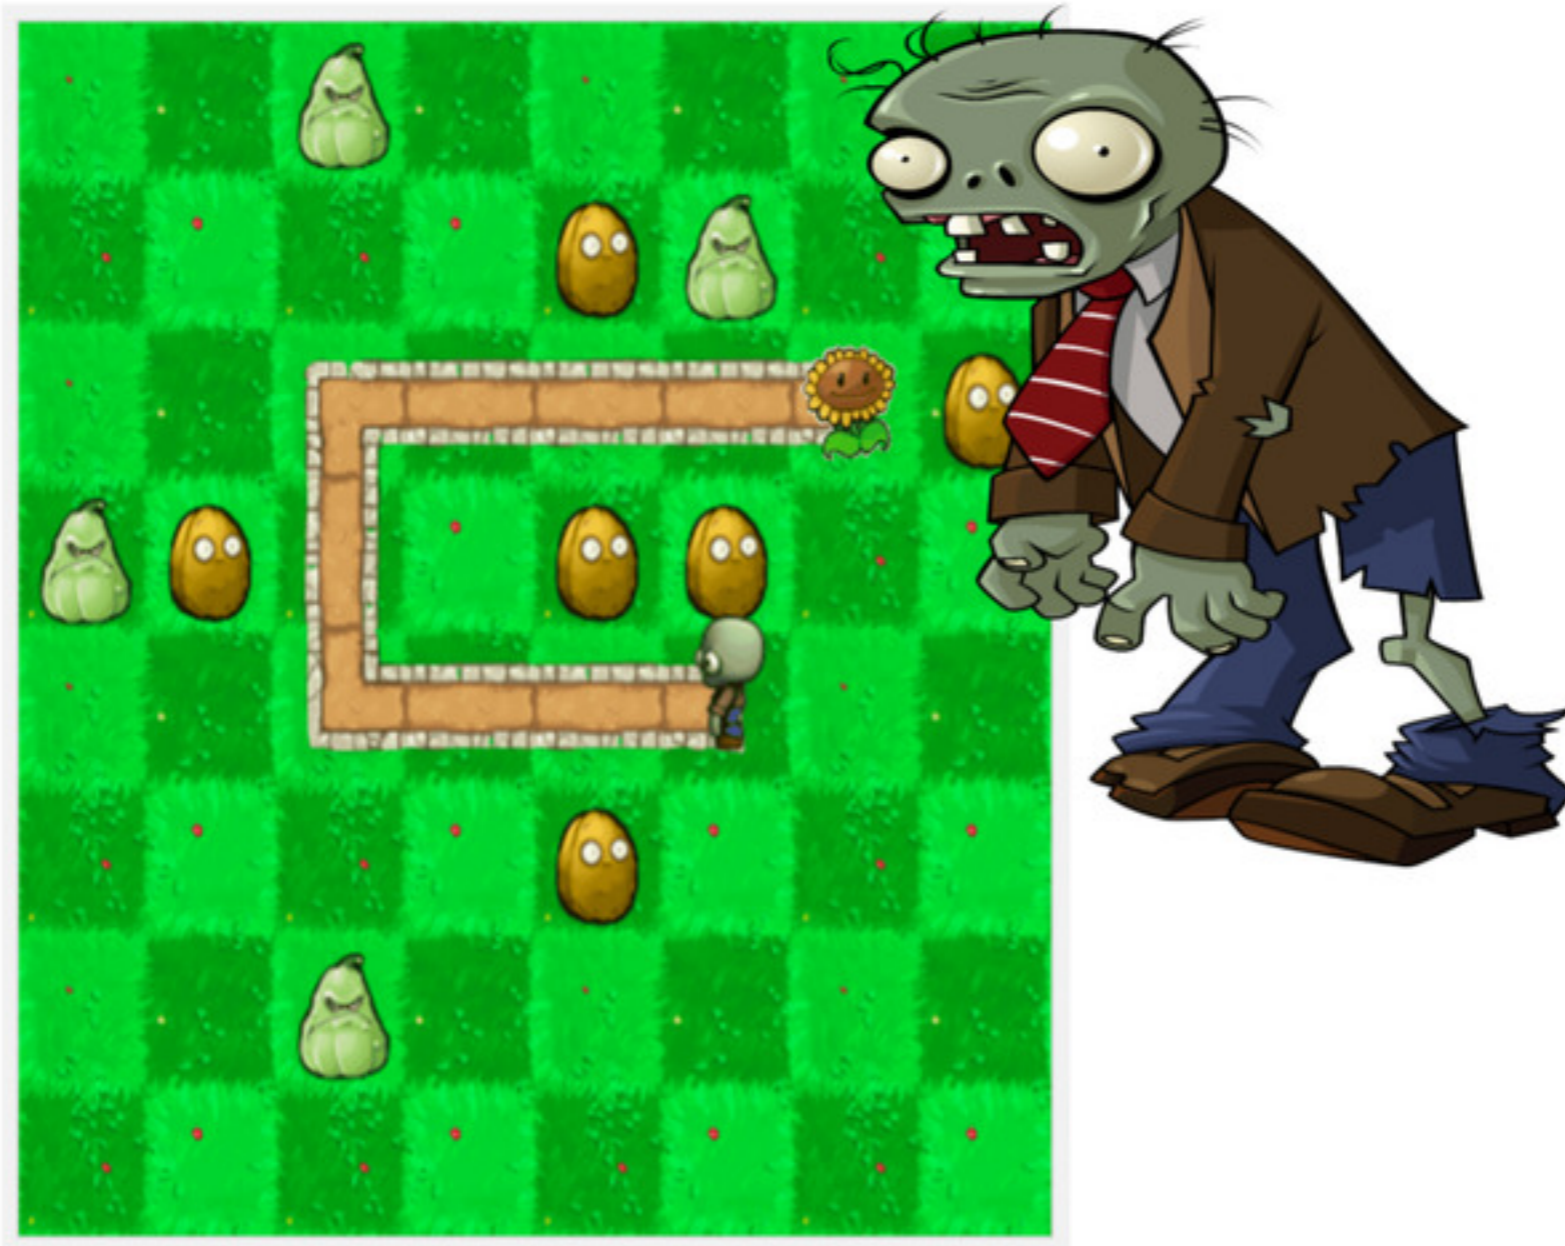

- In each stage there will be a difference from the previous stage, but do not forget that everything you have learned will help you to sweep the remaining stages with the fewest possible number of code squares

The bee will produce honey from the nectar it has collected using the following code

In the second section, you will learn about the character of the zombie, who will help him to reach the flower and eat it

Be careful of the wild flower so you don't eat the zombies by writing the right programming
