

A decorative graphic featuring several pink cherry blossoms and buds arranged in a circular pattern around a central text box. The flowers are rendered in a soft, painterly style with delicate petals and visible stamens. The buds are small and round, clustered together. The entire arrangement is set against a light, textured background. A thin, gold-colored line forms a hexagonal frame around the central text box.

***Deir Ballut Plain***

## Deir Ballut Plain

**In the far west of the West Bank, and on the eastern outskirts of the town of Deir Ballut, west of Salfit, the vast plain stretches over about 1200 dunums of the village's lands. The plain or "meadow," as the citizens here like to call it, is full of varieties of agricultural crops, which constitute the main income for hundreds of oak families. To the west of the village lies "Al-Marij" which is an agricultural plot separated from the plain and it is also loaded with various crops like the plain.**

*Photos of Deir Alot Plain*

***The Deir Ballut plain is exposed to many problems, where the occupation is the main obstacle. In this project, we will learn about two problems and their solutions***

## The First problem

The first and main problem is that the Israeli occupation deliberately released wild pigeons to sabotage farmers in Deir Ballut

*The solution :*

**The solution: Palestinian women farmers in the village of Deir Ballut cover the crops and use this method as a way to protect them from wild pigeons**
